

## **CIPMH FULL DEPTH & CHIMNEY MANHOLE LINERS**

LMK's CIPMH (cured-in-place manhole) solution is a unique, one-piece, resin-saturated liner designed to reduce I&I, renew structural defects and resist corrosion in a variety of manhole configurations and sizes. CIPMH is available for full-depth or chimney manhole rehabilitation projects.

**CIPMH FULL DEPTH**

**CIPMH CHIMNEY**

### **FEATURES:**

- ASTM F3033 compliant
- Stretchable universal-sized liner
- Renews manhole barrel sections, eccentric & concentric cones, regardless of construction or size
- Resists traffic loading & freeze-thaw cycles
- Corrosion-resistant
- Cures in 1-2 hours at ambient temperature depending on depth
- Gasket-sealing options available
