

T-LINER[®]

T-Liner[®] is a structural one-piece, full circle CIPP liner renewing 18 inches or more and 360° of the mainline and extending up the lateral pipe as one continuous lining to a maximum length of 150 feet.

FEATURES:

- Fully restores the structural integrity of the host pipe
- Provides a reliable, long-term resistance to root intrusion
- ASTM F2561 & ASTM F3240 compliant systems
- Smooth, tapered transitions to host pipe for maximum flow
- Uniform wall thickness
- Verifiable non-leaking connection with Insignia™ compression sealing gaskets
- Mainline pipe diameters from 6 to 24 inches
- Cures in 2 hours at ambient temperature or as little as 30 minutes with steam
- Multiple solutions available
