TURN-KEY CIPP WET-OUT TRAILER

LMK's Turn-Key CIPP Wet-Out Trailers are custom-built to provide a trailer that is tailored to the needs of lining crews. Our trailers offer the optimal setting to ensure successful installations, providing installers with a temperature-controlled environment, a flat wet-out surface and all the tools necessary to complete the job. LMK's standard-setting technology, combined with our top-of-the-line trailers and equipment, equips our installers with everything they need to offer the best CIPP lining services in the industry. Available in 24- or 28-foot configurations.

AVAILABLE FOR:

- T-Liner® Main-To-Lateral Connection Lining System
- Performance Liner® Lateral Lining System
- Performance Liner® Sectional Lining System
