

PICOTE GRABBER

Avoid Digging Up Pipes to Retrieve Tools or Foreign Objects

The Picote Grabber allows you to quickly retrieve lost tools, or foreign objects blocking a pipe, and avoid the time and costs of digging and demolition.

While directing the location with your CCTV camera, simply push the grabber into position. The grabbing head is easily rotated which makes it easy to locate and grip the item with precision.

Then, simply turn on the air valve to get a rock solid grip on the object to pull it out and retrieve it. Turn off the air to release.

USES AND BENEFITS

- Two sizes: Original and Large.
- The Original Grabber comes with two different jaw sets.
- The Large Grabber comes with one set of jaws.
- Grabber Extensions can increase the reach of the Grabber by using 1-2 of the 10m (32') extensions.
- Navigates 90° bends.
- CCTV camera and air compressor needed.

Grabber Technical Specifications

Category	Measurement
Maximum Jaw Opening	Original: 3.2" (80mm)
	Large: 5.1" (130mm)
Maximum Item Lifting Weight	Original: 80lbs (35kg)
	Large: 150lbs (70kg)
Air Requirement	Minimum: 8 Bar (116 PSI)
	Maximum: 10 Bar (145 PSI)
Pipe Diameters	Original: 4" (DN100) or larger
	Large: 6" (DN150) or larger
Starting Length	10m (32')
Extensions	10m (32') each (max recommended: 2)

Recommendations:

- Always use caution when operating the Grabber outside of the pipe.
- Always ensure the air pressure hose is disconnected when changing the jaws.
- Always use a CCTV camera when working with the Grabber.
- Original Grabber Jaw selection:
 - Choose Jaw Set 1 to pick up chains and debris with good grabbing points.
 - Use Jaw Set 2 to pick up more rounded and smooth items which are harder to grip.
