

## **MLR — MAIN LATERAL REPAIR**

MLR — Main Lateral Repair is a structural one-piece, full circle CIPP liner renewing 18 inches and 360° of the mainline extending up the lateral pipe as one continuous lining to a maximum length of 150 feet.

### **FEATURES:**

- Fully restores the structural integrity of the host pipe
- Provides resistance to root intrusion
- ASTM 1216 compliant
- Smooth, tapered transitions to host pipe for maximum flow
- Uniform wall thickness
- Utilizes hydrophilic caulk and molded O-rings as seals between the liner and host pipe walls
- Mainline pipe diameters from 6 to 24 inches
- Multiple solutions available
