## VAC-A-TEE®

PATENTED CLEANOUT SYSTEM

The VAC-A-TEE® Cleanout System is a trenchless outside cleanout system that allows access to the lateral pipe for cleaning, inspecting and lateral lining. It consists of a patented VAC-A-TEE® saddle and riser pipe affixed with adhesive. It is a clean, safe, environmentally friendly and installer-friendly method for installing a new cleanout.

**S**

Structural  
saddle for all  
pipe types

**N**

No service  
intrusion

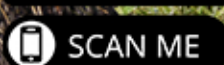

**A**

ASTM F3097  
Compliant

**P**

Pipe diameters  
of 6" or less at  
lateral depths  
up to 15 feet

LEARN MORE

## WHAT MAKES VAC-A-TEE® DIFFERENT?

THE VAC-A-TEE INCORPORATES A PATENTED 180 DEGREE PLUS TECHNOLOGY WHICH COVERS OVER 180 DEGREES OF THE HOST PIPE AND FIRMLY HOLDS THE SADDLE IN PLACE WITH THE SUPPLIED ADHESIVE.
